

Working with the Calendar

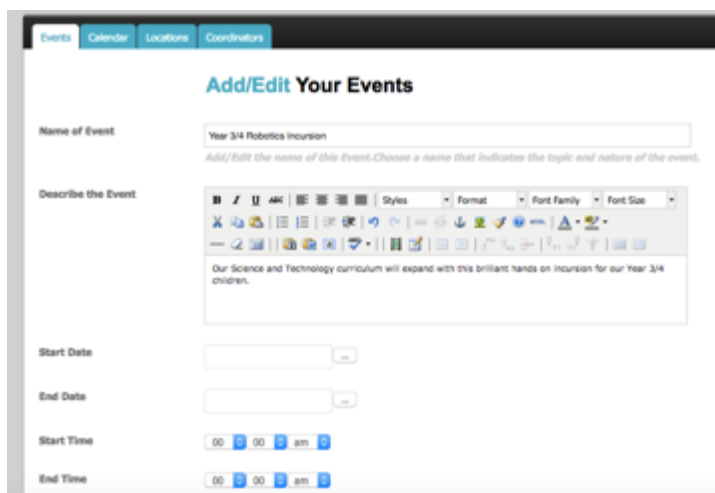

Using the calendar in your website can really assist with your school communication. Not only can your parents view and save calendar entries on their computers, phones and tablets, but you can also send out reminder alerts to your parents for upcoming calendar events using the app Updat-ed which is built into your system. Your website can also scoop up and display upcoming dates on your homepage for easy access for your parents.

1. EVENTS – Create New

Dates are displayed in your CMS from newest to oldest.

2. Name your event and add a description if needed.

Working with the Calendar

- Choose a start date for your event, the system will automatically put the same end date (however you can override this if need be).

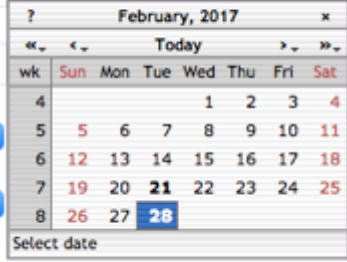

Start Date: 28/02/2017

End Date: 28/02/2017

Start Time: 00 00 am

End Time: 00 00 am

Choose to Repeat Events: Tick this box to repeat the event daily, weekly or monthly.
