

Photo Smarts – Text Wrapping

Want to place an image with text wrapping neatly around it?

1. Load your image into the media folder and copy the URL underneath this image. Go to the page you wish to plant your photo. Put your cursor exactly where you would like the photo to land.

Content

2. Click on the tree (insert/edit media) and paste the image URL into the first box.
3. Click on the “Appearance” tab and select your alignment (in this case we would like the photo to appear on the left).

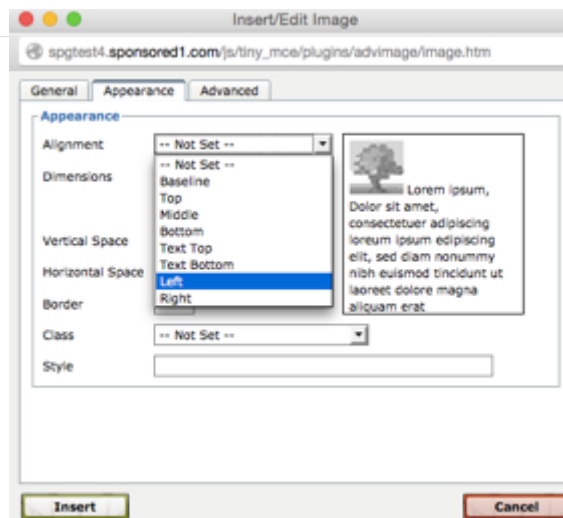

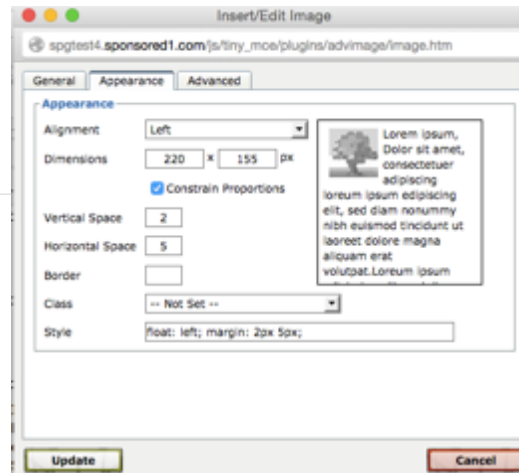

Photo Smarts – Text Wrapping

4. Check the dimensions of your image are a **width** of somewhere between 150 & 300 px (ideally) and change accordingly.
5. Horizontal spacing should be around 5 and vertical spacing should be somewhere around 2.

6. Click on Update and view your image on your page.

Facebook for Schools

Sponsor-ed is leading the charge in providing Australian schools with a framework to implement social media to improve communications with parents.

Sponsor-ed runs the only PD dedicated to helping schools create a facebook presence safely. If you're contemplating facebook for your school, you must attend this seminar. The sessions are facilitated by [Denis Masseni](#), sponsor-ed Director, RMIT and Monash University social media lecturer.

If you would like to organise a Facebook PD for your region/network we would be happy to oblige. Similarly, if you would like to have one run at your school, we can do this too.

Sessions run for two and a half hours. Costs are available on application.

Here's a growing list of schools using social media to connect with their community. There's a bit of twitter and growing list on Facebook. Thank you to all those schools represented, your efforts are serving as role models for those planning their move. If you'd like your school added to the list, please email info@sponsor-ed.com.au
