# iCal Code – Google Calendar Integration

In order to integrate your Google Calendar with your website calendar we need to obtain your iCal code for the Google Calendar.

1. When you are logged into your google account, locate the calendar you want to integrate and select it.

2. Hover over the calendar name and 3 dots will appear on the right hand side.

3. Click on the dots to reveal box shown below

4. Click on Settings

5. In Settings, scroll down until you see "Integrate Calendar"

6. Copy public address in iCal format and send to helpdesk@sponsor-ed.com.au

Integrate calendar

Calendar ID
smaltona.catholic.edu.au_3lupmf3jvhlc9vnfv0f9ii92d4@group.calendar.google.co
